Bag

Legend + chosen + 40 + 3 fields + 12 runes + board · identical opaque sleeves · dice · printed list · ID for 9/19–20 台北矽谷 RQ · water.

Unofficial. Riot / GLORIOUS SOUL own Riftbound. Two Falling Star were added to the pasted 38 so the 40 is legal. Full guide: index.html

Do this every game

1. Exhaust legend before recycling a rune for a spell.
2. Spell first, then Hopeful (2E) or Darius (ready 7).
3. Accelerate Survivor only if the lane is winnable. Conquer = draw.
4. Leave Energy up on their turn (Ray / Stupefy / Retreat / Smoke).
5. Close with Accelerated Watcher (–3 all) or Warp at 6 holding two / 7 holding one.

Scoring (first to 8)

- **Hold** = you already control it at your beginning phase.
- **Conquer** = you take a field you have not scored this turn.
- Each field once per turn.
- **Last point: Hold can win. Conquer for 8 only if you scored every field this turn. Otherwise you draw a card and do not win.**

Mulligan

- Keep: Student + Ray / Yordle / Retreat.
- Ship: Watcher + Warp + Rain together.
- Vs Annie/Yi: keep interaction.

Matchups

- **易大師 Yi** — worst. Do not empty both lanes. Smoke/Star/Watcher. Warp only if Hold wins.
- **維克特 Viktor** — do not 1-for-1 forever. Points now. Rain if he goes wide.
- **安妮 Annie** — keep Ray/Stupefy. Stabilize, then you win the long game.
- **卡莎 mirror** — Void Gate. Do not tap out of Reactions. Smoke their Darius/Watcher.
- **吉茵珂絲 / 李星** — main plan. Save Rain vs Jinx wide.
